7.50

From School To Clubhouse

Originally constructed in 1933 as the North Turner Valley High School, this building was sold to Turner Valley Golf Club in 1963.

The high school consisted of the main building, outbuildings for the school workshop and caretaker's house and scenic grounds along the west boundary of the golf course.

The school was purchased for \$1,200. Final costs for the renovated clubhouse came in at \$28,000. The new clubhouse was opened in March, 1964.

Renovated and expanded several times, the clubhouse continues to be a hub for our membership and guests. The east side of the clubhouse still reflects the origins of the building.

THE HISTORIC TURNER VALLEY GOLF CLUB

The Turner Valley Golf Club dates back to 1930, when it was created by the employees of Royalite Oil, the company that was responsible for the development of local oil reserves.

Originally a 9-hole course with sand greens, the Turner Valley Golf Club now boasts an 18-hole layout that spans between 4712 and 6815 yards, depending on which of the 6 teeoptions you choose to fit your game.

The Clubhouse was built originally as the Turner Valley High School in 1928 to serve the blooming communities of Turner Valley and Black Diamond.

The building was purchased in 1964 by the Turner Valley Golf Club to replace the original clubhouse which was located South and West of the current 1st tee. The building like the golf course, has seen a great deal of changes in its history.
